⇒ Conditional Statement

②

③

β_i

$\frac{row - row}{row}$

$row > 1 \text{ and } row < 3$

$(row == n_c) - \beta_i$

if (B1) {
L1
} else if (B2) {
L2
} else if (B3) {
L3
} etc.

④

$\underbrace{c_1}_{\text{comp}} + \underbrace{c_2}_{\text{sp}} + \underbrace{c_3}_{\text{num}}$

Solve

+ + + ⑤
row
 $(n - row + 1)$
